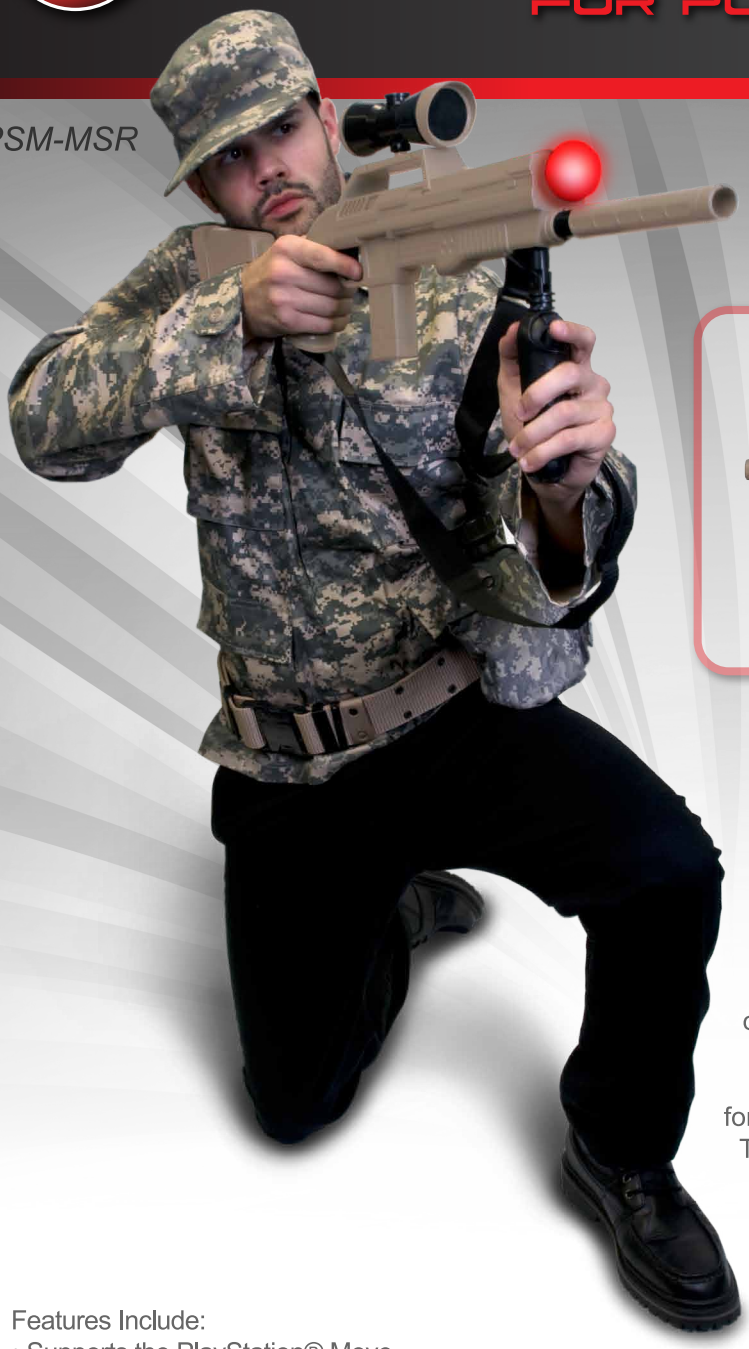
SNIPER RIFLE

FOR PLAYSTATION MOVE

PSM-MSR



Customizable Body Configuration

The PlayStation Move naturally lends itself to more realistic gaming, yet to truly feel what it's like to be in the midst of combat, serious wargame enthusiasts will need CTA Digital's Sniper Rifle for Playstation® Move in their arsenal. The Motion move controller is simply placed in the forearm, and the rest of the accessory can be customized to suit the player's preference or the game requirements.

The scope, rear stock, and muzzle are easily detachable, transforming the full-sized rifle into a smaller, shotgun-sized firearm. There's also an included sniper bipod attachment to allow for steady, low to the ground aiming, and also an attachment for accommodating the Navigation controller if the game calls for one. The options are simply limitless, and the feeling of authenticity cannot be beat.

Features Include:

- Supports the PlayStation® Move motion controller.
- Suitable for a variety of combat titles.
- Highly customizable body configuration.
- Also allows addition support for the PlayStation® Move navigation controller.

**PlayStation® Move Motion Controllers not included.*

Package Includes:

- (1) Sniper rifle body
- (1) Attachable muzzle
- (1) Attachable stock
- (1) Attachable scope
- (1) Sniper bipod attachment
